MESH CHAIR

BY
UNITE SEATING

GRID

Comfort and carefully designed style make the GRID chair a highly versatile solution for all spaces. Backrest with fiberglass polyamide frame with different solutions of high tenacity elastic mesh that adapt to the user's continuous movement, facilitating the breathability of the back while maintaining a constant temperature. Optional lumbar support, features in height and depth adjustment.

Features:

- A chair with ergonomic characters
- A stylish and functional headrest can be individually adjusted in height and angle, providing noticeable relief for the neck area
- Height and depth adjustable lumbar support provides perfect support for the waist.
- The high-quality synchronised mechanism ensures smooth movements – for relaxed, dynamic sitting throughout the day
- With stepless seat height adjustment and adjustable seat depth, the chair can be perfectly tailored to different body sizes – for ergonomic sitting at the highest level
- 4D armrests with soft pad cover offer maximum flexibility: individually adjustable in height, depth, width and angle
- The generously padded seat surface offers exceptional comfort. The particularly robust fabric cover by Danish premium manufacturer Gabriel stands for durable Scandinavian quality
